About Us

At Greeneva, we promote sustainable and ethical practices that support local agriculture and healthy food systems. Our aim is to provide essential resources like food and economic opportunities to communities across the globe.

Greeneva is an internationally recognized import–export company. Our expertise lies in fresh potato cultivation, contract farming, wholesale supply, bulk storage, and export, forming a robust foundation in the field. Greeneva places a strong emphasis on cultivating and nurturing enduring relationships with its clients, built on the foundations of trust, respect, and transparency.

Greeneva’s unique strength in this business is the extensive backward linkages it has established with the farmers. Greeneva adopts a professional approach by sourcing products locally, endorsing farmers and businesses, and ensuring that communities have access to nutritious and healthy food options through our import and export operations.

Greeneva has in–house cold storage facilities in North Gujarat.

Mission

Healthy food and economic opportunity are only part of our vital endeavour. We want to improve the world by prioritising social responsibility, sustainability, and innovation in the field of import and export.

Vision

Our vision is to create a more sustainable and equitable food system through our import–export operations. We recognize the importance of establishing strong relationships with our clients, built on trust, respect, and transparency.

Why Us?

Quality Assurance

At Greeneva, we understand the needs of the potato processing industry and the importance of quality standard. Hence to achieve this we ensure regular checks with inspection and testing during the journey of the potatoes from the farm to the stores for export.

Certification

Our Company has been Registered With:

Product Overview

Potato

OUR POTATO VARIETIES

Potatoes are an excellent source of carbohydrates, providing energy for the body. Carbohydrates are a macronutrient that is essential for a balanced diet. They are broken down into glucose, which is then used as fuel by the body's cells.

Potatoes are one of the most widely consumed vegetables around the world, and there are numerous varieties of potatoes available, each with its unique taste, texture, and nutritional profile. Some of the most popular varieties of potatoes include Lady Rosetta, Taurus, Santana, Sarpo Mira, Colomba & many more.

At Greeneva, we take pride in our commitment to providing you with the freshest, healthiest, and most delicious potatoes.
